

# 2017-2018 Area 1 – District Show Class List

The IBC District Show is the next largest show from an Area/International show. A district show is allowed to limit their entries to a maximum of between 100-200 fish (though they might receive less), with pre-registrations opened preferentially to district members first and then allowed to open to the rest of the area for entries. There is no limit on the number of District Shows in a year; however, none can be held on the same weekend as another district or area show scheduled in the same IBC District.

*Bold are the original entry classes (LF1, SF2, CO3, etc) that the entrant should use in entry forms. The grey italic sub-classes are the possible splits that a judge might use during a show if there are 8 or more entries in the class and a clear division for sub-classes. Judges can also split further if they see appropriate splits. Note that fish commercially known as “Dragon” are to be shown as either Solid Metallic or Bicolor classes, and fish commercially known as “Koi” are to be shown in Patterned (Marble) class.*
